

## AssetWise ALIM New Onboarding Page

AssetWise ALIM has a new Onboarding page on Bentley Communities! This page is a new space for ALIM users to access information about new features, what's coming next, training videos, resources and inspiration for where your AssetWise and Digital Twin journey can take you. In this blog, we will look at each section to understand what it contains. It starts with a general introduction and an ALIM Product Overview video. You can access it through the following link:

[AssetWise ALIM - Onboarding and Adoption Wiki - User Success Onboarding and Adoption - Bentley Communities](#)

### What's New in ALIM

This section takes you through recent additions and the future intended direction of ALIM. It contains notes about the latest release version as well as in-depth dives into some of the highlights. The roadmap details the future strategic direction of ALIM, however this is liable to change as the product advances.

### **What's New in ALIM?**

[Latest ALIM release notes](#)

[Highlights of recent updates to ALIM](#)

[Roadmap - ALIM users can see the product's roadmap, vision and strategy](#)

### Learning Pathways

This section contains training videos broken down into themes. They take you step-by-step through a selection of use cases. At the time of writing this blog, these are still being finalised so there are still some links which don't work, however these will be up and running very soon! This section is your go-to place when you need some help completing a task or working through a problem.

### **Learning Pathways**

The following Pathways will take you through different ALIM use cases, showing you step-by-step how you can achieve each outcome.

### Resources

This contains some useful resources for learning about ALIM. The Product Datasheet provides an overview of ALIM’s capabilities, showing you its full power. Check out the videos and webinars from Bentley’s Year In Infrastructure 2020 for Asset Lifecycle Information Management inspiration!

## Advancement Themes

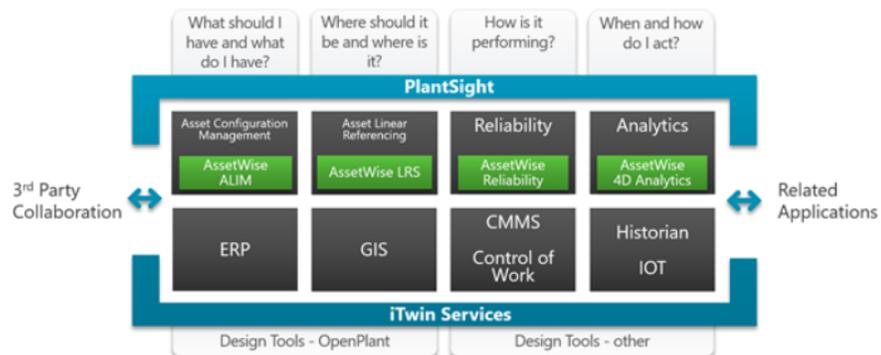

Speaking of inspiration, the Advancement Themes shows possible routes to enhance your ALIM journey, helping you on your way to a fully functional Digital Twin. With ALIM at the heart of your digital ecosystem, the backbone is in place to get the most out of any future investment into information technology, operations technology and engineering technology.

### Advancement Themes

The following categories present options to evolve your ALIM experience, however this list is by no means complete. Working with our service delivery partners, Bentley can support your ambitions, enable you to gain further value from your information management tools and help you work towards a Digital Twin.

Please contact your Account Manager, or [click here to contact Bentley](#), if you would like to discuss advancing your solution. The list below can provide some inspiration:

- Document Management
- Tag Management
- Change Management
- iTwin Visualization
- Data Migration
- User Training

Check out this new resource which is packed full of great content. If you would like to discuss anything further, please reach out to your administrator, account manager, or use the Contact Bentley function under Advancement Themes!
